

Flight Review Form

Pilot info:

Full name on pilots certificate:

Address:

Phone:

Email:

Certificate number:

Year certificate issued:

Ratings held:

Do you hold a medical, if so what type:

Flight Experience:

Date of last flight review or rating:

Hours in the last 12 months:

Total hours logged:

List aircraft flown as PIC: (as many as you remember)

Do you own an aircraft, or do you intend to own one in the near future?

Make and model:

Do you fly primarily certificated aircraft or experimental/LSA?

What do you use your certificate for, or intend to use it for? Recreation, local flying, travel, commercial, etc...

What areas of aviation do you lack confidence in? What subjects would you like to review or learn more about?

What do you use for navigation? Paper charts, installed avionics, mobile device apps, etc...

Homework:

1) Review FARs, especially parts 91 and 61 relating to your certificate.

- 2) Plot a cross country to somewhere you have not been before, include at least one stop, and at least 200 miles total. Include all relevant information for the flight. (Use whatever you use in real world flying, it can be a paper chart or electronic. The goal is to make sure that whatever you use, you can use it effectively.)
